

Fundraiser for Danny Gentile

One of the reasons why a person belongs to an organization is simple – they want to connect with people of like interests. We’ve shared the progress that Danny Gentile, New Haven Chapter, has been making since his accident and many of you have expressed support and concern. We promised you that we would be planning something big to help support Danny and his family. As Danny battles back after a serious accident, he continues to need both your prayers and support. Danny, a talented service manager with Wesson Energy, Waterbury, CT, was burned on over 60% of his body back in October. Danny is one of those friendly guys that will help anyone and now he needs us. He’s often participated in the Care to Ride event by riding his motorcycle. As of January, he continues to be in a medically induced coma. He has had many surgeries and many more to come. Continuously pray for him and his family – they all need the support. Please join us:
